

There are often questions on how to learn Sanskrit in terms of organizations, text books and online resources. It is hard to provide a complete list of options as there are far too many. We have compiled here a few sites and books that will serve the purpose of beginners to advanced level scholars. As part of this initiative, we will try to consolidate the minimal set of books required to learn Sanskrit in addition to the lectures. For those who need help, we will also give a personalized study plan based on the current state of knowledge and learning objectives.
